REPORT OF TRUSTEES OF THE EPSOM PUBLIC LIBRARY

Since our Library Building was newly built, opened, and dedicated on Old Home Day, August 21, 1902, this year is our 55th Anniversary in our present building.

The citizens appropriated Town funds and contributed both money and labor for its construction; but the lumber of which it is built was given and was shipped by a native son of Epsom, Mr. John Dolbeer, from his red wood forests in California. The frame, the exterior and the interior, are entirely of this rare red wood. Perhaps this cannot be said of any other building in New Hampshire.

Your Trustees are pleased to report that our predecessors in this office and we, have carefully preserved our building and there is no evidence of deterioration. This winter for the first time since its dedication in 1902, the building has a central heating system which makes every part of the interior comfortably warm when open for use of the public; this facility is a gift of friends of the Library which the Trustees accept and gratefully acknowledge.

We also acknowledge gifts of a considerable number of books by our citizens during the year.

This is a *free* library; it belongs to you; please use it.

Respectfully submitted,

HENRY DOWST, Sr.
FLORENCE L. YEATON

REPORT OF EPSOM VOLUNTEER FIRE DEPARTMENT

For Year Ending December 31, 1956

Following is submitted the annual report of the Epsom Volunteer Fire Department.

Total number of calls — 20 incl. 3 false alarms

2 house

With a loss of \$500, a very lucky year — or fifty per cent luck and fifty per cent right thinking on the part of our citizens.

As luck is not to be depended on, let's make 1957 twenty-five per cent luck and seventy-five per cent good thinking by bearing in mind the following dangers —

Gas burning vehicles in barns and sheds — get them outside if they don't start or run right.

Gas, oil, electric heating elements, torches, etc. — don't take chances with them.

Heating units, frayed cords, etc.

Smoking — never smoke in bed, and remember— a spark in an easy chair or waste basket can set your home afire hours after you have retired.

Bear these things in mind and have extinguishers of proper kinds in proper places and keep them loaded. Know how to call your Fire Dept.—a twenty-minute delay can burn a set of buildings.

We have been accused of being a social organization and of not having much to do. "Good" — The Fire Dept. that can feel they are more efficient in preventing fires, than putting them out is the cheapest to run, and will save more lives, property and money than any other. Let us live up to it.

For citizens wanting help or advice in doing this, call your Fire Station — 4732. If I can't help you, we have officers who can:

Oil Burning heating units — Alan Goodwin, asst. chief

Electrical — C. A. Johnson

Extinguishers — Lee Cushing (Capt.)

General — John Davis, asst. chief

Fred Knight, capt.

Charles Cushman, capt.

You can help us by reading your back Town Reports.

In case of fire (or even smoke) call the Fire Dept. at once. No matter how small or what it is. How? — on page 67 in 1955 report and page 61 in 1954 report. Do as it says: State your name, where you live (or who you live next to. There are strangers in Town), and what you have for a fire. Judge your fire at once — If a large fire of a combustible nature (oil, gas, etc.) get everyone out at once (we can rebuild a home but not a life). If there's danger from your own phone use a neighbors. Do this and you'll get the right response with the right equipment.

YOUR TOWN DUMP

*Use it freely**Care for it*

Your town dump has been set up for your personal convenience. It provides a suitable place where you can dispose of the large amounts of dangerous, inflammable waste material and other useless items which accumulate around your household and local stores, brush, etc., cut on your property. The town dump has become a valuable and indispensable asset in modern community life.

The most successful town dumps are supervised—regular days provided for their use and inflammable material consistently burned. The town dump which receives no attention, where waste material is scattered about without supervision of any description, soon becomes a community menace and a liability rather than an asset.

Many people still burn debris around their homes. A large number of such fires get out of control causing unnecessary damage and expense to the burner. Why burn at home? Make use of your town dump and eliminate the hazard of burning. It will be easier for you — personally and financially.

If, however, you do burn on your premises

1. Secure a permit from your local forest fire warden—the law requires it. The warden won't refuse you if conditions are safe.
2. Be sure to properly supervise your burning. Don't leave it.
3. Make certain your fire is DEAD OUT before leaving it.

Save yourself much possible difficulty.

Use your dump freely Help Keep it safe

REPORT OF SUPERINTENDENT OF SCHOOLS

To the School Board and Citizens of Epsom:

The General Electric Company slogan: "PROGRESS IS OUR MOST IMPORTANT PRODUCT," is one that could well apply to community planning. Consequently, I deviate from the usual annual report to focus attention to possibilities which are within the realm of the surrounding communities.

In 1949 there was not a single regional school in the State of Massachusetts. Today there are 27 regional school districts, made up of 80 towns. And 40 more towns presently are making plans to create 14 more such schools. THAT IS PROGRESS!

In our own State there are at present 5 regional schools and 16 more areas making surveys and planning to reorganize into Cooperative School Districts. The latest area to nearly complete this planning is Hampton and its surrounding communities. THAT IS PROGRESS!

What a Cooperative School District Is

To secure more efficient schools, two or more towns may merge their resources to form a Cooperative School District and build a new high school or an elementary school, depending on the need. This district is like any other, with an annual school meeting and a school board. The school board must have at least one member from each town. The cost of the school buildings is apportioned among the towns according to formulas established by law.

How a Cooperative District is Formed

1. Each town votes an interest in a cooperative district.

2. Each town votes to petition the State Board of Education to set up a proposed cooperative school district.
3. Each town must vote to accept the State Board's plan.
4. The State Board calls a meeting of the voters of all towns accepting the plan to vote it into formal operation and to elect the school board and other officers.

Conclusion

This brief analysis of the problem should make the citizens in these communities conscious of the poten-

tialities that exist. Already there has been organized in some of these communities a committee to investigate more thoroughly the feasibility of forming a Secondary Cooperative District. The advantages of a regional school? More facilities, modern buildings, better instruction, broader curriculum, at less cost. BETTER SCHOOLS BUILD BETTER COMMUNITIES.
